PEACE, JUSTICE AND STRONG INSTITUTIONS

Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

Work with the government, state institutions, participation in committees

- 25 February 2025. KPI Rector Anatolii Melnychenko was included in the Administrative Committee of the National Council of Ukraine for the Development of Science and Technology. This is an advisory body under the Cabinet of Ministers of Ukraine that supports the formulation and implementation of state policy in science.

• By Act of the Ministry of Education and Science of 2 April 2025 No. 535, the KPI representative and head of a department Prof Oleh Chertov was appointed as head of the F1 "Applied Mathematics"subcommission of the Scientific and Methodological Commission at the Ministry of Education and Science of Ukraine.

On 16 May 2025, the Higher School of Public Administration, the National Agency of Ukraine for Civil Service Affairs and Igor Sikorsky KPI signed a Memorandum of Cooperation, which sets cooperation priorities aimed at carrying out joint scientific projects, programmes and research-educational events, as well as promoting the civil service.

The Memorandum builds on many years of cooperation between the institutions. In particular, the signatories are supposed to jointly organise communication events, conduct sociological research and develop educational initiatives aimed at advancing public administration in the context of digital transformation.

155

Total number of graduates who qualify in law and enforcement-related courses

Policies in effect:

Igor Sikorsky Kyiv Polytechnic Institute's Policy on Stakeholder Engagement in University Development;

The collective agreement between the Administration and the Students' Trade Union Committee for the period from April 2025 to April 2030

The University publishes financial data in open access every year

PEACE, JUSTICE AND STRONG INSTITUTIONS

Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

Drivers of Democratisation

— a joint educational and research project of the Department of Sociology at Igor Sikorsky KPI and YMCA Ukraine has been carried out from 2024 to 2026, supported by the Swedish Institute (a grant of about SEK2 million). The project is intended to deepen the knowledge and develop skills of over 1,000 young people capable of building a resilient democratic society.

In 2025, the project embraced focus-group research among youth activists in several regions of the country, a summer school, and a series of trainings for students and members of YMCA on democratic leadership, mediation, non-violent communication, critical thinking and the prevention of gender-based violence. It is relevant to the problems of peace and justice (SDG 16) because it builds up democratic culture, trust in institutions and peaceful conflict-resolution skills in war-torn Ukraine, and moulds young people's ability to counter discrimination and take part in decision-making, which is the basis of inclusive and accountable institutions.

Events under the project:

- On 29 October 2025, a round table was held at the Department of Sociology. The purpose of the event was to strengthen the youth sector as a driver of democratic change in Ukraine.

•An online training took place on 27 September 2025. Important topics were under discussion:

- democratic leadership in a civilc organisation;
- liberal and Christian democracy;
- the "I-statement" technique as a tool for effective communication.
